

Group Assessment Profile

The purpose of the assessment profile is to enable the marker to distribute marks for group work appropriately so as to recognize individual contributions and effort. The people who know most about this are the members of the group. The assessment profile is a means for you to agree and record the effort that individuals have put in. Marks awarded for the group work will be distributed to individuals based upon the agreed assessment profile submitted.

Please use the following to indicate your relative effort in the “Contribution” column.

- 0 I contributed the same as my team members
- + I contributed more than my team members
- I contributed less than my team members
